# Instructions for connecting to the FDIBA Wireless Network (Windows 7)

In order to connect, you need your username and password, as well as the FDIBA Root Certificate which you need to install on your laptop.

## 1) Root Certificate Installation

To install the certificate, please perform the following steps:

 Log on to a desktop computer in one of the PC rooms using your username and password and use Windows Explorer to navigate to the location <u>X:\Wireless Network</u>.

Note: You can also download the certificate outside the FDIBA network using the URL:

## http://fdiba.tu-sofia.bg/downloads/Install Certificate.exe

Faculty of German Engineering Education and Industrial Management

#### FDIBA IT Team

- 2. Copy the file Install\_Certificate.exe to a USB Flash disk or a diskette.
- **3.** Transfer the file to your laptop.
- 4. Right-Click the executable file and select Run as administrator

The certificate is now installed.
